
TREND ALERT: Toasted Glam

Professional Beauty unveiled the major Glam trend for this party season and has labelled it 'Toasted Glam'.

Here is our take. Think rich tones like bronze, copper and burgundy. Don't hold back on the highlight, this is the time of year to shine and such rich deep tones will give you a great contrast.

For hair go for the slick, sleek and smooth approach. Try a structured ponytail or plait. If you prefer your hair down, try a wet look. think Kim K at the Met Gala. If your hair is short, slick all the way back and don't be afraid to add a hair accessory or a headband for added sparkle.
